## solenoid valve CPV18-M1H-5/3GS-1/4 Part number: 176061

**FESTO** 

This type is suitable for vacuum. For valve terminal CPV. The valve housing contains one 5/3-way valve, which is normally closed.

## **Data sheet**

| Feature   | values   |
|---|--|
| Valve function                                    | 5/3 closed   |
| Type of actuation                                 | electrical   |
| Valve size  | 18 mm  |
| Standard nominal flow rate                        | 1,400 l/min  |
| Operating pressure                                | -0.9 10 bar  |
| Design structure                                  | Piston slide   |
| Type of reset                                     | mechanical spring  |
| Protection class                                  | IP65   |
| Authorisation                                     | C-Tick   |
| Nominal size                                      | 8 mm   |
| Exhaust-air function                              | not throttleable   |
| Sealing principle                                 | soft   |
| Assembly position                                 | Any  |
| Manual override                                   | detenting  |
|   | Pushing  |
| Type of piloting                                  | Piloted  |
| Pilot air supply                                  | external   |
|   | Internal   |
| Flow direction                                    | non reversible   |
| Freedom from overlap                              | Yes  |
| Note on forced dynamisation                       | Switching frequency at least once a week                         |
| Pilot pressure                                    | 3.5 8 bar  |
| b value   | 0.4  |
| C value   | 5.66 l/sbar  |
| Switching time off                                | 32 ms  |
| Switching time on                                 | 14 ms  |
| Duty cycle  | 100% with holding current reduction                              |
| Electrical power consumption                      | 1.5 W  |
| ATEX category Gas                                 | II 3G  |
| Explosion ignition protection type Gas            | Ex nA IIC T4 X Gc  |
| Explosion protection certification outside the EU | NEC 500 Class I, Div. 2  |
| Explosion-proof ambient temperature               | -5°C <= Ta <= +50°C  |
| Operating medium                                  | Compressed air in accordance with ISO8573-1:2010 [7:4:4]         |
| Note on operating and pilot medium                | Lubricated operation possible (subsequently required for further |
|   | operation)   |
| CE mark (see declaration of conformity)           | to EU directive for EMC  |
| Corrosion resistance classification CRC           | 2 - Moderate corrosion stress                                    |
| Storage temperature                               | -20 40 °C  |
| Medium temperature                                | -5 50 °C   |
| Ambient temperature                               | -5 50 °C   |
| Product weight                                    | 260 g  |
| Mounting type                                     | with through hole  |

| Feature                         | values             |
|---------------------------------|--------------------|
| Auxiliary pilot air port 12/14  | Common line        |
| Pilot exhaust port 82/84        | Common line        |
| Pneumatic connection, port 1    | Common line        |
| Pneumatic connection, 11        | Common line        |
| Pneumatic connection, port 2    | G1/4               |
| Pneumatic ports 3/5 combined    | Common line        |
| Pneumatic connection, port 4    | G1/4               |
| Materials note                  | Conforms to RoHS   |
| Materials information for seals | HNBR               |
|                                 | NBR                |
