

Self-closing/rotary push-in fittings QS

Self-closing/rotary push-in fittings QS

Key features

Application	Simply "plug and work"	Reliably connected	Captive seal
 <p>Effortless selection of the right fitting. Festo offers a secure solution for every connection. The convenient push-in fitting system includes well over 1000 types of standard and function fittings.</p>	 <p>The stainless steel retaining ring within the fitting holds the tubing securely without damaging its surface. Vibration and pressure surges are safely absorbed. The tubing can be detached easily by pressing down the blue release ring. For your convenience, the appropriate outside tubing diameter is marked on the release ring.</p>	 <p>A nitrile rubber sealing ring guarantees a perfect seal between standard OD tubing and the body of the fitting. Standard tubing is suitable for use with compressed air and vacuum.</p>	 <p>All of the brass components included in Festo's push-in fittings are nickel plated and are thus highly resistant to corrosion. The tapered ISO R threads have a self-sealing PTFE coating, which allows the fitting to be re-used up to five times without the need for additional sealing components.</p>

Orientable	360° rotatable, with ball bearing
 <p>The fitting can be aligned after assembly.</p>	 <p>Permits rotating motion of up to 500 rpm during use.</p>

Which fitting fits which thread?

Metric thread	G thread to DIN ISO 228-1	R thread to DIN 2999-1 und ISO 7/1
<ul style="list-style-type: none"> Cylindrical metric thread is comparable with G-thread Sealing is guaranteed by a clip-on O-ring 	<ul style="list-style-type: none"> Shorter thread Constant installation depth Replaceable sealing ring Sealing at front Can be re-used a number of times thanks to replaceable sealing ring 	<ul style="list-style-type: none"> Self-sealing thread Sealing on the threads No additional sealing surface required Smaller installation dimensions since there is no need for a rebate for the sealing surface Can be re-used up to five times
 <p>Metric male thread</p>  <p>Metric female thread</p>	 <p>G male thread</p>  <p>G female thread</p>	 <p>R male thread</p>  <p>G female thread R female thread</p>

Operating and environmental conditions		
Type	Self-closing push-in fitting QSK	Rotary push-in fitting QSR
Operating pressure [bar] complete temperature range	–0.95 ... +6	
Temperature-dependent operating pressure [bar]	–0.95 ... +14 → diagram	
Operating medium	Compressed air in accordance with ISO 8573-1:2010 [7:--:--]	
	Water as per manufacturer's declaration ¹⁾ (only with push-in bulkhead connector QSSK)	–
Note on operating/pilot medium	Operation with lubricated medium possible	
Ambient temperature [°C]	–10 ... +80	0 ... +60
Corrosion resistance class CRC ²⁾	1	
Certification	Germanischer Lloyd	

1) Additional information www.festo.com/sp → User documentation.

2) Corrosion resistance class CRC 1 to Festo standard FN 940070

Low corrosion stress. For dry indoor applications or transport and storage protection. Also applies to parts behind covers, in the non-visible interior area, and parts which are covered in the application (e.g. drive trunnions).
